[illegible] (S. Kanara) Puttur taluk - Parishwaram Devi's application for a pension [illegible]

Not to be filled in in the case of permanent records.

Ref.7964-28-A5. South Kanara Collector's Office,

Mangalore, Dated 14th Decr.1928.

From

G. W. Wells, Esquire, M.A., I.C.S.,

Collector of South Kanara.

The Secretary to the Board,

Land Revenue & Settlement,

Madras.

Sir,

Irrigation - South Kanara - Paishwani rive. Installation of a pump -Permission.

One Shitharamaya, a ryot of Sullia village, Puttur Taluk, applies for permission to place a pump at the place marked C, in the sketch herewith enclosed and pump out water from the Paishwani river at the place marked C2 in order to irrigate his paddy fields in S.Nos. 28/5, 29/2 & 4, 32/1 and 28/4. S.Nos. 28/5, 29/2 & 4, 32/2 and 28/4 are III cla wet lands while 32/1 is a II class wet land. The petitioner states that as the rain water is hardly sufficient to raise the 1st crop, he intends to raise a second crop also on the lands with the aid of the water by means of the pump. The area proposed to be irrigated is 12.24 acres. The Tahsildar and the Revenue Divisional Officer recommend the grant of the permission as no public or private interests will be affected by such grant. The Executive Engineer, West Coast is also of the same opinion.

2. In this District there are no irrigation works. Ryots do take water from rivers by baling and are also permitted to put up temporary dams to rivers and to use the water without payment for irrigation purposes subject only to certain conditions.

3. I therefore recommend that subject to the condition noted below the permission applied for may be granted free of charge.

Conditions.

1. The pump installation should be removed without

claiming any compensation whenever its removal is required by Government

2. That the water should be pumped out for irrigation purposes only.

3. That the permission is given without prejudice to the rights of Government to construct any works, that might be deemed necessary hereafter, and to charge for water supplied from those works.

4. That the permission is not to affect the right of Government to charge after the currency of the present Settlement has expired for water supplied by means of the structure now allowed to be constructed.

5. That the licensee shall be responsible for any loss caused to Government or to any private party by the installation of the pumping plant.

Your obedient servant,

15.12.26

For Collector,
